ST. LOUIS, June 7 .- Like a millrace the swollen Mississippi is surging past St. Louis | Youth Who Killed His Stepmother and with a stage of 36.9 feet at 7 o'clock tonight, making a rise of one and one-half feet since the same hour last night. The government forecast is that the rise will continue rapid until after midnight, and then the next two days the stage will creep up slowly probably reaching 28 feet, and begin to recede.

A small steamer from St. Charles succeeded in reaching Black Walnut to-night and the 200 imperiled people, terrified and in great distress for food and shelter, were taken from the island in safety. All were rescued.

BRIDGE IS IN THE WAY.

Between Black Walnut and St. Louis the Bellefontaine bridge stretches across the Missouri, and the high stage of the river precluded any large steamer passing underneath. No steamer was available at St. Charles to go down the river to them. The Spread Eagle, moored at Atlon, above St. Louis, was hurriedly manned and started for the imperiled colony late last night, but was forced to turn back at the Bellefontaine bridge. A private yacht here at St. Louis was manned by a company of policemen today and started for Black Walnut, as the craft sat low enough in the water to pass all bridges. But another factor had to be reckoned with, and that was the swift current. All steam was turned on and the yacht's screw churned the muddy waters, but she made no headway against the current, and after vainly stemming the flood for several hours without making one hundred yards, the yacht returned to shore and the venture was abandoned. None of the large river steamers in St. Louis harbor capable of forcing their way with their powerful engines against the mill-race current can pass under Eads bridge and Merchants' bridge, and if they could the Belle-

THRONGS VIEW THE FLOOD. Excursionists poured into St. Louis in vast throngs to-day and the big excursion steamers, loaded to the guards, plied up and down the harbor all day. An arc of curious humanity stretched high above the torrent from Missouri to Illinois, completely obliterating the top of Eads bridge.

The flood stage to-night has broken all high-water records at St. Louis since May 19, 1858, when the high water mark was 37.5 feet. The highest mark known here was reached by the great flood of June 27, 1844, when 41.4 feet was attained. Other high-water records here have been made as follows: May 10, 1876, 32.5 feet; May 5, 1881, 33.7 feet; July, 5, 1882, 32.5 feet; June 25, 1883, 34.7 feet; May 19, 1892, 36 feet; May 3, 1893, 31.5 feet and May 2, 1897, 31 feet. The highwater records of 1844 and 1858 are not official, as there was no government station here during those years, but there are many people living here who remember both those floods and their high-water marks.

FLOOD LOSSES IN KANSAS.

Millions of Dollars' Worth of Property Destroyed or Damaged.

KANSAS CITY, Mo., June 7.-Kansas has suffered as a result of the recent floods more than any other State. No exact figures of the loss sustained can, of course, be given, but those who have an intimate knowledge of the sections submerged and the extent and force of the floods have been making estimates, and the conclusions that they have reached may be considered fairly reliable. The damage done in the principal cities and towns is estimated as follows: North Topeka, \$250,000; Lawrence, \$500,000; Salina, \$200,000; Manhattan, \$150,000; Wamego, \$10,000; St. Mary's, \$40,000; Blue Rapids, \$20,000; Clay Center, \$30,000; Enterprise, \$30,-000; Concordia, \$35,000; Junetion City, \$100, 000; Solomon, \$50,000; Abilene, \$250,000; Ellsworth, \$20,000; Lindsburg, \$100,000; Hutchinson, \$100,000; Minneapolis, \$100,000; Emporia, \$65,000; Florence, \$50,000; Lincoln Center, \$50,000; Atchison, \$100,000; Burlington, \$20,-000; Hill City, \$30,000; Beloit, \$30,000; Argentine, \$2,000,000, and Kansas City, Kan., and suburbs, \$8,000,000. No acount has been taken of the smaller

towns, aithough nearly 200 of these were affected by the floods. The very lowest estimate that can be made of the loss done to crops is \$5,000,000. Owing to the lateness of the season and the condition of the soil, it is very doubtful if any profit will be drawn during the remainder of the year from the farms which were inundated. As a consequence there will be a great deal of individual want and

MAN HUNT IN THE HILLS

ARTHUR LYONS PURSUED BY A SHER-IFF'S POSSE OF 100.

Is Defying All Martin County-Threatens to Shoot.

Special to the Indianapolis Journal LOOGOGTEE, Ind., June 7 .- The pursuit of Arthur Lyons, the youth who shot and killed his stepmother, Mrs. Addle Lyons, Friday evening at Killion, Martin county, has developed into a veritable man hunt. All day Sunday Sheriff George W. Holsapple, of Martin county, scoured the county with a posse of one hundred men, and while the chase was unsuccessful up to nightfall, it is believed young Lyons has been surrounded in the hills twelve miles north of this place, and that his escape has been effectually cut off.

Lyons has served notice on his pursuers that he will not be taken alive, and that he expects to kill at least two more persons before he is taken. Last night a young man named Marshall saw him near the West Union Church and talked with him. To Marshall the threat was made that Lyon would die resisting capture, and that he had two more victims marked. Lyons is known to be armed with two revolvers and a Winchester rifle, and as he has served in the regular army and is a crack shot, the officers realize that his capture without sacri- 6:30 to-night over the Big Four a special W. Butler, themselves will be practically impossible.

The murder and the pursuit of Lyons has developed an incipient neighborhood feud in the locality where the crime was committed that bids fair to have serious results. It is known that the young man has been aided by some of his relatives, and that they will do all in their power to prevent his capture. The relatives of the murdered woman have taken umbrage at this, and threats of violence have been exchanged between the factions.

Four Little Children Thrown from Merry-Go-Round.

Special to the Indianapolis Journal. EVANSVILLE, Ind., June 7.-In an accident at Oak Summit Park, three miles from the city, at 6 o'clock this even

four children were injured, one fatally. The injured are: HAZEL KOENIG, aged six, badly bruised about the chest and internally

SELMA BRINKMAN, severely. OLGA BRINKMAN, severely. ARTHUR LUCITTLE, severely.

The last three are expected to recover. The children, with a number of others, were taking a ride on a steam merry-go-

round. The swing lost control of itself, and the conductor, Ben Rose, was unable to check it. The revolutions became faster and faster and faster, and Rose, in his excitement, picked up the children one by one and hurled them to the ground. The little Koenig girl was thrown against a post, and when picked up was more dead than alive. An ambulance was called and the Koenig girl was brought to this city night. Her mother is prostrated with

In alighting from the machine the conductor was badly bruised, and will be laid up for several days. Within a second after itants had to be hurriedly moved out. Some he jumped the merry-go-round the machine collapsed, and the seats, horses and charlots were scattered in all directions. Had the children remained on the machine a few seconds longer it is probable all would have been killed.

Precautions Taken.

BERLIN, June 7 .- Dr. Milan Sachs, a young Viennese physician, is dead from plague at the Berlin Hospital. He had studied the disease at Agram and other Balkan cities and came to Berlin a few weeks ago to continue his researches at the Bacteriological Institute, where he became infected with the plague. On Thursday he was transferred to an isolated barrack, where he died Friday afternoon. Noel will be subpoenaed as a witness before the investigating committee.

Mr. Logsdon informed the members of the committee yesterday that he is not content to let insinuations made by Mr. Noel go without an attempt to prove their truth or falsity. He asked Chairman Wynne, of the committee, to issue a subpoena for Noel, and Mr. Wynne probably will take the step requested. In case he does not Mr. Logsdon will apply to the Circuit Court for authority to subpoena Noel himself. Logsdon is determined to force Noel's hand. He demands that the committee shall leave nothing undone in the investigation now
